Little Brutal. A note

Little Brutal shrinks the language of post-war civic concrete into nine compact objects for suites, lobbies and private residences. Stacked blocks, cantilevers, board-marked faces and deep recesses are rendered as crisp hand-laid shells that read as monolithic yet lift with one hand.

Each piece is a hand-laid fiberglass shell of 3-4 mm with a mineral-filled gelcoat that is sanded and sealed to a matte concrete surface, lightweight, non-porous and suitable for hospitality use. Board-marked grain and pour seams are moulded in, so every edition is dimensionally consistent while retaining subtle hand variation.
